

Mix Name Carbon Offset Content Label

Green Mountain™ Carbon Offsets is a carbon offset product. One carbon offset represents one metric ton of carbon dioxide-equivalent emissions reductions. The verified GHG emissions reductions you purchased are sourced from projects that have been validated and registered under high-quality project standards.

Project Type	Project Certification	Project Location	% of Product
Landfill Methane Capture	<i>Climate Action Reserve or Verified Carbon Standard</i>	USA	100%

The supplied emissions reductions were created in 2013-2020

The Carbon Offset Content Label represents the mix of offsets we have contracted to provide. Actual percentages of GHG emissions reductions may vary by a small amount. In the case of significant variance, Green Mountain Energy is obligated to provide you with more accurate historical disclosure.
